

Investment Managers

Our Client

Our client is a leading development finance company that focusses exclusively on investing in emerging businesses. The client manages several funds and programs on behalf of international development finance institutions, development organizations, foundations, large companies and private funders. With on-the-ground local teams in 13 countries in Africa and the Middle East, our client has done over 500 investments in local small and growing businesses so far, sustaining more than 25,000 jobs.

Our client invests in start-up and growing businesses at the base of the SME pyramid. These owner- operated businesses typically lack track record and collateral but are deemed viable with the appropriate business support. Our client invests through the integrated provision of business skills, market linkages and risk capital and in ways that are financially sustainable. Our client’s investments are typically structured as medium-term risk capital typically through a self-liquidating ‘mezzanine’ instrument with repayment linked to the cash flow of the investee. They manage risk through on-the ground teams and proven investment and support processes and have adopted a fully integrated approach to responsible investment, with ESG considerations at each step of the investment process to maximize impact and mitigate risk.

Role Summary

The role’s key purpose is to create sustainable impact through serving entrepreneurs in the SME sector with risk capital and business support, helping them to realise their full business potential and achieve long- term success. The investment manager delivers tangible value to the SME clients and by doing so, achieves financial and impact returns on his/her transactions. A secondary purpose is to develop and share within the company network knowledge and expertise in SME investment and support, including lessons learnt.
