

Senior Credit Risk Analyst, Pretoria - South Africa

Our Client

Our client is a leading development finance company that focusses exclusively on investing in emerging businesses. The client manages several funds and programs on behalf of international development finance institutions, development organizations, foundations, large companies and private funders. With on-the-ground local teams in 13 countries in Africa and the Middle East, our client has done over 500 investments in local small and growing businesses so far, sustaining more than 25,000 jobs.

Our client invests in start-up and growing businesses at the base of the SME pyramid. These owner-operated businesses typically lack track record and collateral but are deemed viable with the appropriate business support. Our client invests through the integrated provision of business skills, market linkages and risk capital and in ways that are financially sustainable. Our client's investments are typically structured as medium-term risk capital typically through a self-liquidating 'mezzanine' instrument with repayment linked to the cash flow of the investee. They manage risk through on-the-ground teams and proven investment and support processes and have adopted a fully integrated approach to responsible investment, with ESG considerations at each step of the investment process to maximize impact and mitigate risk.

ROLE SUMMARY

The Senior Credit Risk Analyst (SCRA) is responsible to support the Credit Risk Management Executive (CRME) in developing and strengthening Credit Risk Management policies and procedures that will reduce credit risk to the business and assist in making profitable credit decisions.

The SCRA is accountable for the effective review, analysis and monitoring of prospective clients as well as the different Fund Portfolios as to ensure quality Investment decisions and establish and maintain a robust Credit Risk Management (CRM) Framework.

The SCRA develops and implement key Investment and Credit Risk tools to support best practice execution of investment activities

The CRA supports the achievement of the organisation's CRM plan and strategy and its annual goals and objectives. The CRA assists the Credit Risk Management Executive (CRME) in building and maintaining a robust and effective credit risk culture in the company.

The Role

- Manage credit risk and related projects, and work with a team that is responsible for the health of the credit portfolio.

- Analyse client and portfolio credit data in order to make informed credit decisions and recommendations.
- Work closely with credit and investment teams to ensure that the credit strategy is rolled out correctly and that there is strong support between the two areas.
- Analyse financial and investment information to identify and address key credit risks and improve the CRM framework and Fund strategies based on outcomes.
- Support a sound credit granting process to enable sound credit decisions consistent with the company’s CRM Strategy and meet competitive time, pricing and structuring pressures.
- Maintain appropriate credit measurement and monitoring processes.
- Establish a system of independent, ongoing assessment of its credit risk management processes and the report on the results of such reviews.

Primary Relationships

The position reports to the CRME of the Group. Within the organisation, the position has primary working relationships with the Investment teams, CRM team and functional executives. Outside of the organisation the position has primary working relationships with service providers.
