

## OUR CLIENT

Our client is a leading global financial services group providing a wide range of risk insurance products, pension and life assurance as well as asset management services across different markets. The Company operates in over 10 African markets through a syndicated distribution model covering businesses, individuals, investments, and property.

## BACKGROUND

Africa is a key strategic focus as the company expands its strong global footprint across the continent. This role is central to the company achieving the next leap in its exciting story of growth within the African market.

## ROLE PROFILE

Our client is seeking an outstanding, deeply experienced and strong individual as a **Technical Manager (Underwriting)** to co-ordinate and manage the expansion of the pan-African group's underwriting capabilities in Africa. The group's African entities serve clients i.e. African businesses, investors and lenders as fronting carriers while the cover holders will manage the relationship with the market. The group's structure comprises a Holding Company, a Special Purpose Syndicate (SPS), to underwrite the business through a quota share reinsurance treaty from the group's partner and a Corporate Member to fund the SPS.
